

GE
Industrial Solutions

Buy Log - Low Voltage Switchgear

effective from 02 April 2013

GE imagination at work

Solutions that make a difference

At GE - Industrial Solutions, with an expanded focus on customer challenges, we are leading the future of electrification by committing to technologies that will help create cleaner, smarter and more efficient global electrical infrastructure.

We have a lot to offer right from products to services, changing the way people live and work. Our comprehensive

and innovative solutions meet our customers' challenges in Power, Protection & Distribution, addressing diverse segments that include Core & Commercial Infrastructure, OEMs, Utilities or Industries.

Warranty Policy

Products manufactured by us are warranted against defects arising out of manufacturing processes or use of defective raw materials, for a period of 18 months from the date of supply or 12 months from the date of installation whichever is earlier. The company reserves the right to either replace or repair the defective items after ascertaining the facts through a detailed service report on usage of our products in normal conditions. The company reserves the right to take back the defective goods for carrying out study or inspection.

Warranty is not applicable if the products are found tampered with or subjected to calibration changes. The company's liability is limited to repair or replace the defective product only. The manufacturer shall not be liable for any consequential loss, injury or damages.

The warranty period for all products shall be as indicated above with the exceptions of MCB & Capacitors. The warranty period applicable for these products are as under:

Product improvement is a continuous process and technical details applicable for the products are only those mentioned on the product.

Any dispute arising in this regard shall be subjected to jurisdiction of courts in Bangalore, in the state of Karnataka, India.

Prices mentioned in the buy log are for guidance purposes and the products may be sold at lower prices also. Goods are always sold subject to laws, rules and regulations relating to excise, customs and maximum retail price as applicable at the time of purchase and as printed on the goods.

All government taxes at applicable rates will be charged extra.

Coordination Chart

New Range of Air Circuit Breakers

- Evolved from Global platform
- Adapted for Indian conditions & usage
- Manufactured in India

Range & Performance

- 630A - 6400A in 3 frame sizes
- Conforms to IEC60947-2/3
- 3P & 4P versions and Fixed & Withdrawable configurations
- Choice of 50kA, 65kA, 85kA & 100kA breaking capacities
- Icu=Ics=Icw=1s across the range
- Suitable for voltages upto 1000VAC and 750VDC

Installation

- Compact foot-print
- No deration upto 50°C
- Liberal termination space to accommodate Aluminium links
- Modular configuration of breaker and accessories
- Control connections accessible from front
- Front-mounted snap-fit accessories
- Accessories & control voltage indication on the front fascia

Protection

- State-of-the-art Micro-processor based Trip units, backed by Rogowski sensors
- Standard large LCD display
- Touch-pad based programming navigation
- 7 Trip units versions offering advanced features viz. Power metering, Power protection and Communication

Spectronic S Air Circuit Breaker

- ACBs with "Static" or "Microprocessor based" protection releases
- Conforms to IEC60947-2/IS13947-2
- Range 800A to 4000A
- High breaking capacities from 55kA to 75kA
- 3 pole and 4 pole versions, withdrawable and fixed type, manual or motorised operation
- Tropicalised to Class I (standard) and Class II (optional)
- Option of static type release LMZ7 or Microprocessor based release RMS7
- Flexible terminal options
- Highest electrical & mechanical endurance

Spectronic S ACB Withdrawable Version

Release Selection

LMZ7

- Standard protection - overload, short circuit
- **Option (Factory fitted)**
 - With Ground fault protection
 - With Distinct fault indicator

RMS7

- Standard protection - overload
- Short circuit & instantaneous
- **Option (Factory fitted)**
 - Earth fault (EF) protection
 - Distinct fault indicator (O/L, S/C & EF)
 - Rating plug

Retrofit Kit for Mpac

- Current rating 400A-4000 A
- Integrity of system is maintained as tested with enclosure
- No need to dismantle busbar
- No modification / fabrication in panel
- Quick and fast Retrofit 2-3 hours time
- Proper discrimination
- All volt-metric releases accessible from front
- Upgrading to microprocessor based releases and communication option

Rating plug for RMS7 without earth fault	3800
Rating plug for RMS7 with earth fault	7400

Notes:

1. Rear horizontal terminals are standard
2. For other terminal options, please contact our nearest sales office
3. 3 pole ACB requires '6' nos of terminals and 4 poles ACB requires '8' nos of terminals for incoming and outgoing
4. In case of combination of terminals, deduct the of horizontal Buy Log terminals and add the of selected terminal option for Buy Log incoming and outgoing separately
5. For codes not available in the Buy Log, please contact our nearest sales office
6. Local controls (ON/OFF push buttons) interlocking is a standard offering with Spectronic ACB (Pad Lock not supplied)
7. While ordering 3 pole breaker, consider one number neutral CT additionally

* Please contact our nearest sales office

**Motor, closing coil, shunt trip release & wiring harness

Record SL

- Range: 16A to 800A
- Breaking capacity - 16, 25, 36kA
- Available in 1P, 3P, 4P
- Line load interchangeability
- Fixed & adjustable overload setting
- Suitable for Isolation
- Universal EFM module for Earthfault protection

Record Plus

- Conforms to IEC60947-2/IS13947-2
- Double break contact system - exceptional current limiting, low let through energy & high contact life
- Range - 16A to 1600A
- 3 pole and 4 pole versions
- Thermal magnetic & microprocessor based interchangeable trip units
- Maximum rated operational voltage - 690V AC
- Load line interchangeability
- Suitable for isolation
- Field fittable accessories:
 - Alarm / auxiliary switches
 - Shunt release
 - Front drive kits
 - UV release
- Motor operators, plug in & draw out versions, mechanical interlocking base plates
- Universal EFM module for Earthfault protection

Spectra

- Conforms to IEC60947-2/IS13947-2
- Spectra TME - 3/4 pole 16A to 125A Breaking capacity - 18kA, 25kA
- Spectra TM - 3/4 pole 16A to 200A Breaking capacity - 25kA, 36kA
- Spectra Plus - Microprocessor release 20A-630A Breaking capacity - 36, 50kA
- Range of internal and external accessories
- Universal EFM module for Earthfault protection

Type LM

- Electronic Release with Adjustable overload, Short circuit and Earth fault
- Conforms to IS13947-2
- Protections: Overload, Short circuit, Earth fault
- 3 pole and 4 pole versions
- Rated operational voltage - 415V AC
- 3 frame sizes from 3.2 to 800A
- Breaking capacities 25, 35, 50, 65kA
- Field fittable accessories:
 - Alarm / auxiliary switches
 - Shunt release
 - UV release
 - Earth fault module
 - Front drive kits
- Universal EFM module for Earthfault protection

For the following Comfort Function products please contact your nearest sales office

- Switches & push buttons - Aster
- Indication lamp - Aster
- Contactors - Contax
- Relays - Contax R
- Impulse switches - Pulsar S
- Staircase switches - Pulsar TS
- Time relays - Pulsar T
- Analogue time switches - Classic
- Digital time switches - Galax
- Time switches - 72x72 Classic and Galax
- Light sensitive switches - Galax LSS
- Transformers - Series T
- Measurement instruments - Series MT
- Priority and sequence phase relays - Series PR
- Surge arresters - Surge guard

MV Circuit Breaker - SecoVac

Overview

- Rated current 630A – 1250A @ 12kV
- Conformance to IEC 62271-100
- Rated short circuit breaking capacity: 26.3kA, 31.5kA
- Power frequency with stand voltage: 42kV
- Mechanical life: 10,000 / 20,000 operations
- Suitable for Indoor application

Salient Features

- **Power frequency withstand : 42kV**
 - Robust design
 - Higher reliability & durability
- **Enclosed pole construction**
 - Better Creepage distance
 - Reliable for harsh & dusty environments
- **Mechanical life 20,000 operations**
 - Higher system operating life
- **Tulip contacts in breaker**
 - Ensures proper contact compared to conventional flat type contact
 - Convenient to connect
 - Wider contact area

Sandwich Busways – WavePro LT

Overview

- Current rating Al: 250A-4000A; Cu:250A-5000A*
- Type tested as per IEC 60439-1&2
- Rated Operating voltage (Ui): 690VAC
- Rated Insulation voltage (Ue): 1000V
- Low watt loss & Temperature rise within the limits specified in standards
- Available versions:
 - 3L + 50% Housing ground
 - 3L + 100% N + 50% Housing ground
 - 3L + 200% N + 50% Housing ground
 - 3L + 100% N + 50% Internal ground
 - 3L + 200% N + 50% Internal ground
- Degree of Protection: IP40, IP54 & IP65
- Suitable for indoor application. For outdoor, IP65 version with canopy to be used
- Range of accessories: Joints, Elbows, Tee elbows, Offset elbows, Transposition, Expansions, Reducer, Plug in boxes, Adaptor boxes, End cover etc..
- Housing made of extruded Aluminium with zero fixed losses

*6300A available on request.

Overhead Busbars and Plug-In Box

Overhead Busbars (OHBB)

- Type RR overhead busbar units offer highly flexible power distribution system to meet complex shop layouts
- 200A to 400A OHBB, standard units of 3658mm and 2440mm long respectively
- Busbars are supported by fire retardant phenolic moulds
- Complete safety with fully shrouded plug-in points at specific intervals
- Extended range of 200A to 800A in copper & 630A to 800A in aluminium
OHBB also available on request

Plug-in Box

- For direct plugging into OHBB
- 32A, 63A and 100A TPN plug in boxes with HBC fuse links for flexibility in power distribution (with MCCB/provision for MCB, on request)
- Contacts reinforced by spring steel strips for proper contact with busbars
- Two earth pins located at the ends engage first in the special earth bushes before the main contacts make

Tap Off Box

- Available in 63A to 630A with SDFUs/MCCBs. Please contact our nearest sales office for detailed information

Incomer Housing with MCCB

- Available in 400A and 630A as standard design. Please contact our nearest sales office for detailed information

Notes: GPS3

1. The MPCB will trip only on short-circuits and on overloads, it gives a trip signal to the contactor through a NC from contactor in-built relay
2. The MPCB also gives the trip signal through NC contact from the in-built relay to the contactor for protection against single phasing and phase reversal
